Primary Mathematics Toolkit – Support material

Shape and space: Transformation – Suggestions for key language

TRANSFORMATION

flip turn

slide movement

same/different larger/smaller

wider/narrower shorter/longer

match pattern repeat

direction mirror

create visualise

size position

movement

reflection symmetry

symmetrical match

shapes lines

angles corners

polygons geometric

triangle square

hexagon rotation

centre of rotation order

degrees clockwise

anti-clockwise tessellation

tessellate overlap

translation orientation

proportion combination

co-ordinates grid

x-axis y-axis enlarge

scale ratio corresponding angles

This list is not exhaustive. Please add to this as appropriate.
