

Number: Sets and operations – Suggestions for key language

SETS AND OPERATIONS

sort		same		different	combine
partition		a set of		subset	compare
join		together		count	match
thick	thin	long	short	rough	smooth
wide	narrow	size	shape	colour	
how many		more	less	altogether	and
add	plus	equals	same as	tens	ones
greater than	total	sum of	round	estimate	
take away	leaves	less than	fewer	partition	
split	subtract		decrease	digit	symbol
renaming	repeated	addition	multiply	skip count	times
pattern		factor	split	lots	doubles
trebling	product	array	vertical	horizontal	
column	rows		property	commutative	
known facts			associate property		
partition	merge	partial products	parts	while	unit
simplify	combination		area	region	scale
multiplier	multiples	multiplicand	lowest common denominator		
division	repeated subtraction		share equally		
separate	halving		groups		
left over	remainder	divided by	divisor	dividend	
divisible		whole number	equation		
quotient	composite number		prime number		
near doubles	minus		difference		
groups	distributive		cost
