

Communicating

Aistear uses four interconnected Themes to describe how babies, toddlers and young children learn and develop. **Communicating** is one of these Themes.

Aim 1

Babies, toddlers and young children will use multiple ways of communicating.

Aim 3

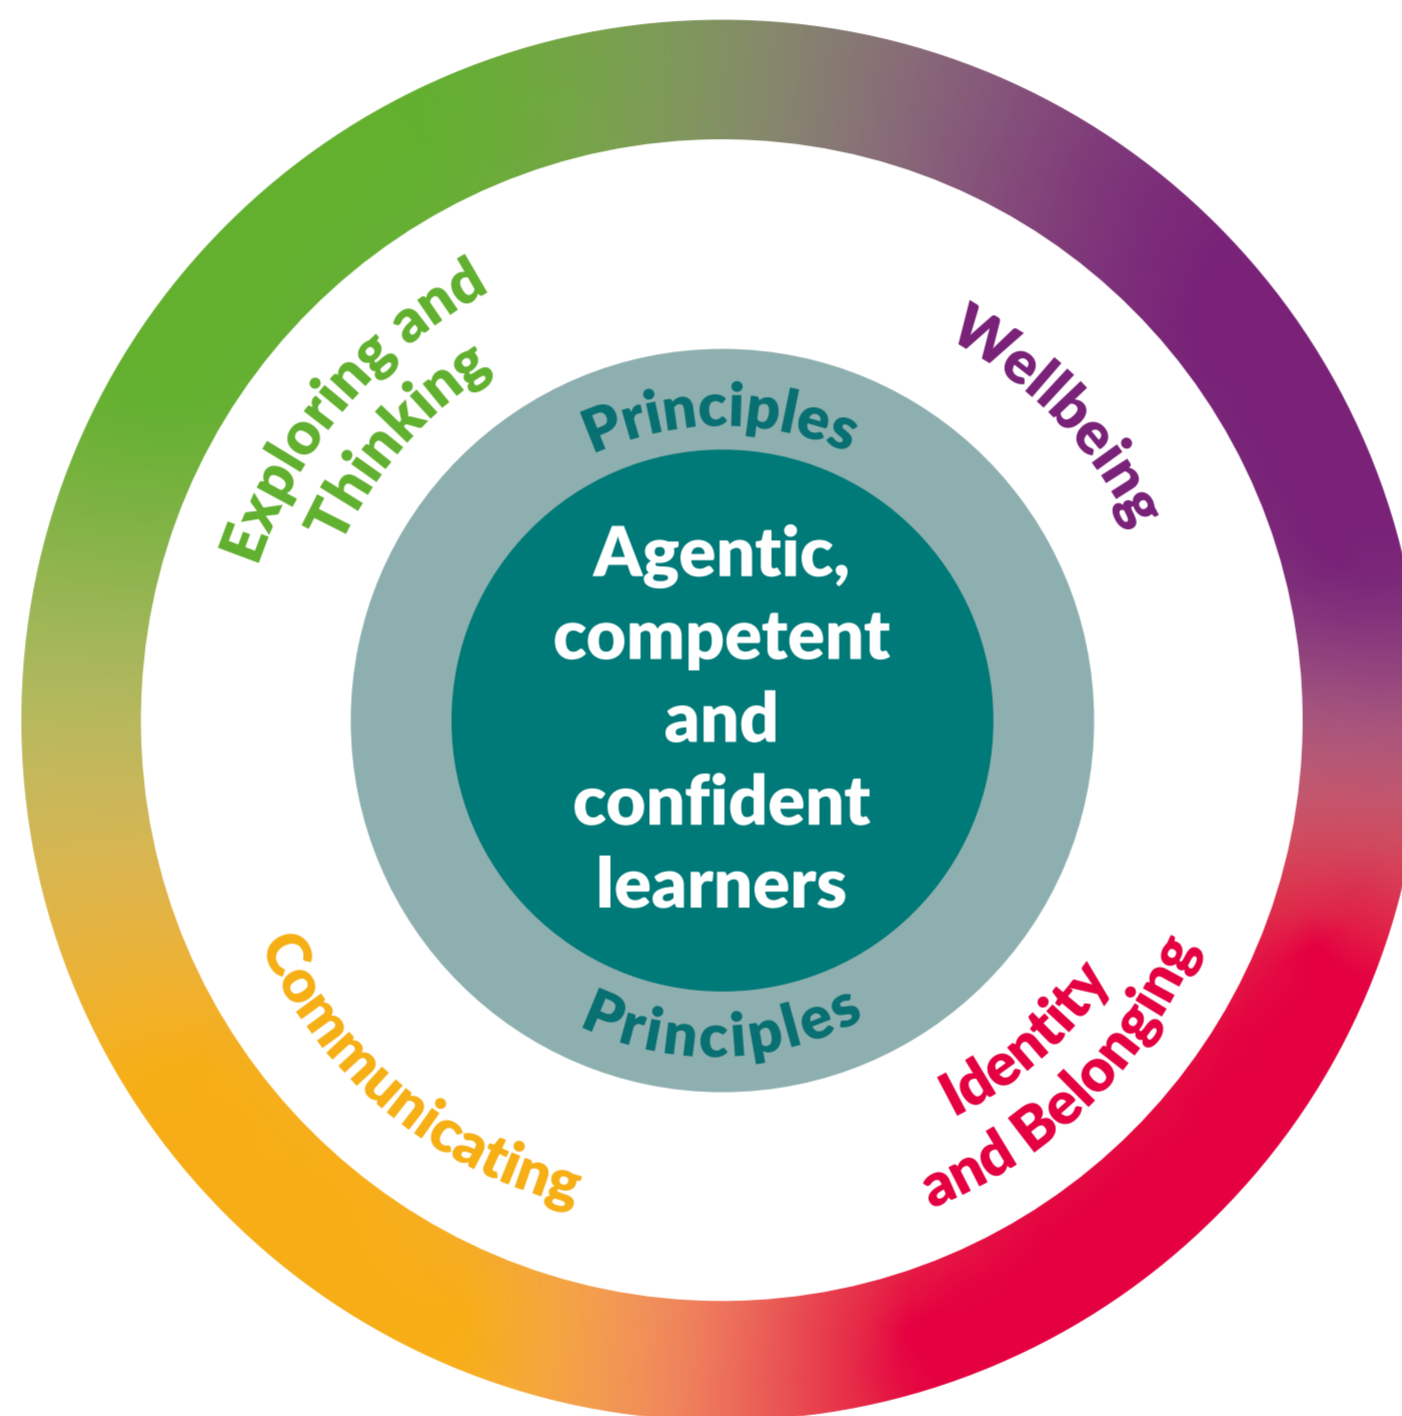

Babies, toddlers and young children will broaden their understanding of the world by making sense of their world through emergent literacy and numeracy experiences.

Aim 2

Babies, toddlers and young children will use language(s).

Aim 4

Babies, toddlers and young children will express themselves creatively and imaginatively.

Aistear's Theme of Communicating is about babies, toddlers and young children sharing their experiences, thoughts, ideas, feelings, interests, needs and rights with others with growing *muinín* (confidence) and competence in a variety of ways and for a variety of purposes.
